April 29, 2002

Sir:

In response to the Examiner's Office Action dated November 27, 2001, the response being extended three (3) months to Monday, April 29, 2002 the following amendments and remarks are respectfully submitted in connection with the above-identified application.

IN THE SPECIFICATION:

Please replace the paragraph beginning on page 9, line 1 of the specification with the following rewritten paragraph:

--The above-described disk type winding apparatus is a thin type capable of adapting the principle and type of a known motor and has a trademarked name of ECODISC (KONE Corporation, Finland). In the elevator system without a machine room, a machine room is installed on the top of the building, so that more fabrication cost is needed, and the external appearance of the building is very
